## TEMPEST PROGRAM BUG

TEMPEST UPRIGHTS PRIOR TO SERIAL #17426

If the score on your Tempest<sup>tm</sup> is greater than 170,000, there is a 12% chance that a program bug may award 40 credits for one quarter.

The ROM (#136002-217) in this package, replaces the ROM in location J-1 on the main PCB and will correct the problem.

All cabaret and cocktail cabinets will have the correct ROM installed.

Thank you.

We recommend that you:
