INSTALLATION INSTRUCTION

Game Board Add On Sound Unit (P.C. 0611-00905)

1. Remove game board jacks and two mounting screws
P.C. 0611-00902
2. Connect Add on Sound Unit to game board and
replace the two mounting screws through both
boards. See Figure #1
3. Connect 15 pin jack to Add On Sount Unit
4. Add 5 wire from new cable to 9 pin jack in
proper sequence

Pin #1 YELLOW
Pin #6 BLUE-WHITE
Pin #7 BROWN-BLACK
Pin #9 YELLOW-BLACK
Pin #8 WHITE-GREEN

5. Solder 3 wires from new cable to transformer
terminals in proper sequence.
 - a) WHITE-GREEN to 14V Tap.
 - b) YELLOW to center Tap.
 - c) YELLOW-BLACK to 0-Tap
6. Mount 8 Ohm speaker and grill. Drill one inch
holes if speaker hole is missing.
7. Clip on the BLUE-WHITE and BROWN-BLACK wires from
new cable to speaker terminals.
8. Secure new cable in cabinet.
9. Check game sound and set volume control pot.
