

CHILLER™

ADDENDUM TO CROSSBOW™ OR CHEYENNE™ MANUAL

VERSION 1.0

The Chiller™ game is based on the same cabinet and electronics as the Crossbow™ or Cheyenne™ series. This addendum is intended to note the differences between Chiller™ and the previous models. The diagnostics tests and error codes in the software remain as they were in the previous models, as do the printed circuit board schematics. The bow and bowstring in Crossbow™ were replaced in Cheyenne™ with a gun barrel, P/N 75-0015-00 and remains the same in Chiller™. The parts listed below are unique to Chiller™.
