Vapor TRX turns the driving genre on its ear! Players maneuver fast, sleek spaceships through the far-out canyons and cities of future Earth, searching on-the-fly for weapons, turbos, and abundant short-cuts. Vapor TRX is a roller-coaster ride without the track!

One of the first things you'll notice about Vapor TRX - and what sets it apart in the arcade - is the sleek design incorporating a bench-style seat and a classic flight-style controller. From the plentiful power-ups to the turbo tunnels, Vapor brings welcome diversity to your deluxe product mix!

Four awe-inspiring tracks • Six unique vehicles • Shortcuts galore • Four units linkable  
Power-up cannon boosts, missiles, and turbos • Permanent drone elimination

**Radikal Bikers**  
is fresh and fun!

Radikal Bikers is all about a fast, fun-filled race through the crowded streets of a madcap city. Select one of four bikers and deliver pizza to target areas before the time expires. Beat the other bikers and you continue on to the next circuit.

For added challenge, collect the five different power-ups and many shortcuts on each course. Twelve delivery missions offer something for everybody!

A unique handlebar-type controller gives precise acceleration and braking. Use the pull-back feature to get more air for wheelies, collecting power-ups and sliding around turns.

This game adds diversity to your product mix and is good clean fun. Delicious!!
