**Master 7™**, the name says it all. Not an ordinary dart game and not for an ordinary location. If you are in a mature market or have locations with master level players, then this is your dart game.

The **Master 7™** is a game requiring skill and accuracy beyond that of a novice player. The game features shots that have to be thrown into individual segments, such as triples, to be proficient. The Master offers 7 new game choices in addition to **301 Double In/Double Out** and **701 Double Out**.

The first of two card games offered is **Poker Darts™**. Each player is allowed six darts to select his/her cards. A card is selected by hitting the triple segment corresponding to the desired card. Miss and the game automatically gives you a random card! The seventh J card is an automatic, down & dirty, and plays in everyone's hand. May the best hand of darts win.

Or perhaps **Black Jack** is your game. In **Black Jack Darts™** the player closest to scoring 21 wins, unless your opponent scores **Black Jack!**

Both of these are two to four player games and is 25 cents per player. From an operator's viewpoint, it is six darts for a quarter.

You won't need lady luck on your side to make big profits on **Roulette 200™**! Watch the wheel turn and the ball bounce. The number the ball lands on is that player's scoring number for that round. The ball lands on a different number every round sometimes high, sometimes .... Be the first player to score 200 points and win. But watch out, miss all three darts and lose up to 50 points off your score.

**Roulette 200™** is a 50 cent game per player, with up to four players per game.

Watch the quarters roll in with **Ship-Captain-Crew Darts™**. Arachnid has adapted this popular dice game to one of the new challenging games on the **Master 7**.

The object of this game is in nine darts to hit a 6, a 5, and a 4 in that order. Then, score as many points as possible with the remaining darts. The object of the game is simple, but winning, well... it's a challenge.

Three new options are offered when playing **Cricket**: The first is **Four Player Regular Cricket** with up to four individuals competing against each other; the winner being the player with all numbers closed and the highest score.

Two to four players can play the game of **Cut-Throat Cricket**. Close a number and give points to your opponents. The player with the lowest score wins.

Here is a new twist in **Cricket**: **Team Cricket**, four players participate as teams. Both you and your partner must close the number before your team can score.

All the options for the games of **Cricket** are 50 cents per play, or better yet, \$1.00 to \$2.00 per game.

But that's not all to make the games even more challenging **Arachnid, Inc.** has added the option of a **Switchable Double Bull**. Use the 25/50 point bull or keep the same 50 point full target. The choice is yours, but why not? After all it is a **Masters Game**.

The **League Slot™**, yes, something else new, is an entry located on the front cabinet of the game. The **League Slot™** allows team captains to insert league envelopes into the game after the evening matches are over.

With all these new profit-producing ideas from the

originator of electronic darts, **Arachnid, Inc.** has made an optional **Bill Validator** available to you. This optional bill validator accepts 1, 2, or 5 dollar bills, Just to make your quarter load lighter and easier to count!

This bill validator also has an optional **Bill Stacker**, stacking up to 400 bills!

The **Master 7™** has all the **Super 6 Plus™** features such as attractive screen graphics, **Auxiliary Television Hookup**, **Spider Writer™**, self diagnostic testing, front door access to component tray, popularity meter, **Coin Credit Card™**, accumulating credits, and the **Arachnid Web™**, to snare missed darts.

Challenge your master players and dartsharks with this innovative new dart game by **Arachnid, Inc.** **The Master 7™**.
